## LESSON 7

### 1. Look and read.

#### Animal facts

*Yesterday afternoon, I went to the zoo with my parents. There I saw many beautiful animals like lions, tigers, elephants, monkeys and others.*

*I learned many things. For example, I didn't know that adult elephants can weight 7,500 kilos, and they can live approximately 65 years. They are very big and they have long trunks which can weight 120 kilos and can be 3 meters long. Elephants eat plants, fruits and leaves.*

*Another animal that I really liked was the lion. I learned that lions can weight 250 kilos when they are adults, and they can live between 12 or 14 years.*

*I thought that lions were the biggest feline but I was wrong. The biggest feline are the tigers. An adult tiger weights 300 kilos. Tigers and lions love to eat meat.*
