## LESSON 7

### Will we live on the moon?

*Some day people will live on the moon. Scientists believe that by the year 2040 this will be possible. A group of astronauts will leave the earth to live on the dark side of the moon. The journey will take them four days.*

*The astronauts will live on the dark side of the moon, because this side has water.*

*Scientists now believe that there is a large ice lake on the dark side of the moon. This ice will be melted to provide water. The astronauts will live in special buildings. These buildings will have air so that they can breathe. They won't have to wear their spacesuits inside the buildings.*

*They won't have to do the housework because robots will do it. They will take a pill three times a day. Each group of four astronauts will live on the moon for six months. Then, they will return to earth.*

### Answer the questions.

1. What do the scientists believe will happen in the year 2040?

---

2. How long will the journey take them to the moon?

---

3. Where will the astronauts live?

---

4. Why won't the astronauts wear their spacesuits inside the buildings?
