cable car

subway

Read and circle “T” for true or “F” for false.

Cable cars run on steel rails with a slot between the tracks where an underground cable runs at 9 mph.

Cable cars are completely mechanical and they don't have motors.

People enjoy traveling by cable car because it's comfortable.

Traveling by boat is interesting but traveling by the “Mega-cruise” boat is exciting. It takes you through the Amazon area in South America. Just go and enjoy of the amazing views.

Do you like traveling by train? Then, try the New York subway. It's a fast and inexpensive way to get around. It goes through all New York stations. It connects to other States and the three mayor airports of New York.
